ABOUT ME

As a Full Stack Developer with over 2 years of professional experience in graphic design, I have developed a strong interest in Web Development. My journey led me to complete a Master's degree in UI/UX earlier this year, which ignited my passion for the Frontend. Currently, I am pursuing studies in Applied Computer Sciences with a specialization in AI. This program encompasses a diverse range of subjects, including databases, coding languages, cloud computing, networking, and more.

My goal is to blend my communication skills and design expertise with my AI and tech knowledge within a dynamic team. I am committed to continuous learning and adopting new technologies.

EDUCATION

Applied Computer Science, Thomas More Geel

09/2023 – present | Geel, Belgium

Full Stack Web Developer, Le Wagon [↗](#)

2023 | Brussels, Belgium
